

When 'skipping' rocks on the lake, it's important to choose the best shaped ones.

Then of course, it's important that you hold the rock correctly before throwing it.

Now, wind up for the pitch and hope it lands right, so it will 'skip' over the water a few times.

Of course, the most fun is watching the rocks skip to see how many times you can make it skip.

Not quite as much fun as skipping rocks is putting an 'icky' worm on the hook!

But it's sure fun sitting with Aunt Tammy, trying to catch a big fish! (May ~ 2005 Wilson's Island)
