What's This In the Cavallaro Back Yard Now ??

No, I'm not getting lazy. I'm just trying to make it easier when it comes to mowing the lawn!

This is our newly acquired 2004 Model Ariens 32 inch Riding Lawn Mower.

With such a nice mower, we decided we then needed a nice shed to store it in.

It took a little trial and error, getting used to 'steering' it using those levers instead of a conventional steering wheel. It will turn in an abrupt circle where it stands! Gotta be careful or one could become dizzy:o)
